

Interactive Pediatric Epilepsy Surgery Course

“From the seizure semiology to Epileptogenic Zone”

Bologna – March 7, 2020

Relais Bellaria Hotel & Congress – Via Altural1 Bis

8:30 a.m. Welcome and Introduction

9:00 - 11:00 a.m.

Focal seizures: how to use cortical stimulation to better understand clinical semiology
(Philippe Kahane, France)

11:00 – 11:30 a.m. Coffee break

11:30 – 13:00 p.m.

Hypermotor seizures
(Stefano Francione, Italy) TBC

13:00 – 14:00 p.m. Lunch

14:00 – 15:30 p.m.

Opercular-Insular Epilepsy in Childhood
(Michael Duchowny, USA)

15:30 – 17:00 p.m.

Versive seizures
(Roberto Mai, Italy) TBC

17:00 – 17:30 p.m. Coffee break

17:30 – 19:00 p.m.

Minimal Resective Surgery
(Prasanna Jayakar, USA)

19:00 p.m. End of Session

Each tutor will present their lesson showing video-EEGs or high teaching materials.

For each lesson the attendances will actively involved with the aim of making hypotheses about the location of the epileptogenic zone. An explanation of the different possible networks involved in the seizure type analyzed will be performed.

The course is designed in the format of practical training modules and it will be accredited.
